Count of rentals for each movie category in the family movie type category

Times rented out

This query isolates the categories of the 5 that are considered family movie types, then gives us a total count of the rentals of these movies..

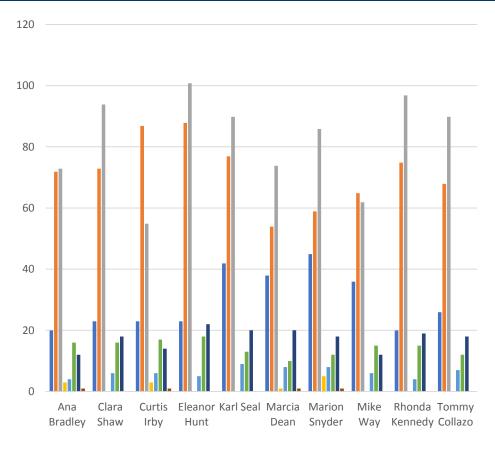

Store comparison by rental orders over months

This query returns the comparison between 2 stores, labelled 1 and 2. The number of rentals per store, per month are then shown.

The legend is the months February to October corresponding to 2 to 8.

The store's top 10 paying customers query

- Sum of pay_amount 2007-02-01T00:00:00.000Z
- Sum of pay_amount 2007-03-01T00:00:00.000Z
- Sum of pay_amount 2007-04-01T00:00:00.000Z
- Sum of pay_amount 2007-05-01T00:00:00.000Z
- Sum of pay_countpermonth 2007-02-01T00:00:00.000Z
- Sum of pay_countpermonth 2007-03-01T00:00:00.000Z
- Sum of pay_countpermonth 2007-04-01T00:00:00.000Z
- Sum of pay_countpermonth 2007-05-01T00:00:00.000Z

The top paying customers of 2017 by the invoices they generated as well as the amounts paid.

We see clearly that May 2017 saw very poor sales

This question covers the payment differential of the top 10 paying customers in the stores.
